

**ANA G MÉNDEZ UNIVERSITY  
STUDENT CONSUMER INFORMATION  
VACCINATION REQUIREMENTS**

AGMU does not require specific vaccinations for initial admission to the University. However, students enrolled in specific academic programs may be required to provide proof of vaccination and other information prior to beginning at their assigned placement and/or clinical sites. Some sites may also have special requirements such as a drug screen, additional immunizations, criminal background checks, or tuberculin skin test (TST), etc.. Students will be informed of these additional requirements prior to the beginning of their placement. Costs associated with these requirements will be the student's responsibility.

**Student seeking information about vaccinations:**

Students should review the AGMU Academic Catalog (<https://agmu.edu/en/catalogs>), academic, and academic program materials provided to the student at orientation and within their academic courses. Students may also direct questions regarding vaccinations to their Academic Program Director or School Director (<https://agmu.edu/en/content/contact-us>).
