

Master of Health Administration with specialization in Health Services Management and Evaluation

Credits: 42

Program Description

The Master of Health Administration with specialization in Health Services Management and Evaluation provides the integrated development of a diverse student population through critical and creative thinking, the construction of knowledge and its application. The graduate of the MHA Program is a professional academically prepared to perform successfully in middle management in health care organizations. What distinguishes this program, and these professionals are their knowledge and holistic vision in the field, management, evaluation of services, quality of service and their ability to make healthy choices in the organization. In this way, it will ensure to maintain the proper balance between the provision of services, the management and the fiscal side.

Program Outcomes

1. Develop strategies and align organizational design to support and achieve an organization's mission and vision.
2. Manage and lead diverse people, teams, and organizations and communicate effectively with diverse stakeholders to build inclusive healthcare institutions.
3. Use data and evidence-based management practices to improve decision-making and organizational performance to provide the highest quality of patient care and equitable access to services.
4. Develop and manage innovative solutions to improve organizational performance and population health.
5. Influence and respond to policies that promote optimal performance of the US healthcare system and healthcare organizations, based on understanding and analysis of the system's history, organization, and financing.
6. Provide effective financial management for healthcare organizations.
7. Manage and behave legally and ethically in a complex, highly regulated healthcare environment.

Program sequence will be available at the time of enrollment.

The language of instruction and program delivery modality are subject to availability.
